

Denise manages McDonald's Global Workforce Solutions department which is the Contingent Workforce Program for McDonald's Corporation. McDonald's program is an internally run VMO that manages the contractor population in all categories including staff augmentation, managed service projects, outsourced labor, and IC's. This program sits in the People pillar of McDonald's Global Business Services function.

In addition to experience running an internal program, Denise has managed on and offsite MSP programs. She was introduced to the industry when she was hired at a direct hire staffing firm. Two years later she co-founded her own staffing firm where she worked for 10 years prior to selling the business to stay at home to raise her daughter.

With over 25 years in the staffing industry, she has experienced the vast industry and legislative changes that have brought us to our current state. Denise is a member of VMS Professionals and a former SIA member.
